

ANNEX III: ORGANISATION & METHODOLOGY

To be completed by the tenderer

Please provide the following information:

1. RATIONALE

- Any comments you have on the terms of reference for the successful execution of activities, in particular regarding the objectives and expected results, thus demonstrating the degree of understanding of the contract. Your opinion on the key issues related to the achievement of the contract objectives and expected results.
- An explanation of the risks and assumptions affecting the execution of the contract.

2. STRATEGY

- An outline of the approach proposed for contract implementation.
- A list of the proposed tasks you consider necessary to achieve the contract objectives.
- Inputs and outputs.

3. BACKSTOPPING, SUBCONTRACTING AND CAPACITY PROVIDING ENTITIES

- A description of the support facilities (back-stopping) that the contractor will provide to the team of experts during execution of the contract. The back-up function will be assessed in the evaluation and should be carefully explained in the organisation and methodology, including the list of staff, units, capacity of permanent staff regularly intervening as experts on similar projects, provision of expertise in the region/country or origin as well as partner countries, organisational structure, etc. which are supposed to ensure that function, as well as the available quality systems and knowledge capitalisation methods and tools, within the respective members of the consortium.
- A description of any subcontracting arrangements and arrangements with capacity providers (if such were identified during the shortlisting stage) with a clear indication of the tasks that will be entrusted to subcontractors and to capacity providers and a statement by the tenderer guaranteeing the eligibility of subcontractors and capacity providers.

4. INVOLVEMENT OF ALL MEMBERS OF THE CONSORTIUM AND OF CAPACITY PROVIDING ENTITIES

- If a tender is submitted by a consortium, a description of the input from each member of the consortium and the distribution and interaction of tasks and responsibilities between them. Furthermore, the involvement of all members of the consortium will be considered added value in the tender evaluation. If the tender is submitted by a single company, the total of available points for this part in the evaluation grid will be allocated.
- If the tenderer relied on the capacity of other entities to fulfil the technical and professional criteria, evidence of the written commitment provided by those entities for performing the services for which their technical and professional capacities are required must be provided.

Organisation & methodology

- If the tenderer relied on the capacity of other entities to fulfil the economic and financial criteria, evidence of the written commitment provided by those entities establishing their joint liability for the performance of the contract must be provided.

5. TIMETABLE OF WORK

- The timing, sequence and duration of the proposed tasks, taking into account travel time.
- The identification and timing of major milestones in executing the contract, including an indication of how the achievement of these would be reflected in any reports, particularly those stipulated in the terms of reference.
- The methodologies contained in the offer should include a work plan indicating the envisaged resources to be mobilised.

6. LOG FRAME

The Logical framework (logframe) matrix should evolve during the Action's (i.e. the projects) lifetime: new lines can be added for listing new activities as well as new columns for intermediary targets (milestones) when it is relevant and values will be regularly updated in the column foreseen for reporting purpose (see "Current value"). The term "results" refers to the outputs, outcome(s) and impact of the Action.

Changes to the Logical framework that affect the expected results (impact, outcomes, outputs) shall be agreed with the contracting authority before the modification takes place, and implemented through a appropriate administrative procedure related to amendment to the contract.

	<i>Result chain</i>	<i>Indicator</i>	<i>Baseline</i> <i>(value & reference year)</i>	<i>Target</i> <i>(value & reference year)</i>	<i>Current value*</i> <i>(reference year)</i> <i>(* to be included in interim and final reports)</i>	<i>Source and mean of verification</i>	<i>Assumptions</i>
<i>Impact (Overall objective)</i>	<i>The broader, long-term change to which the action contributes at country, regional or sector level, in the political, social, economic and environmental global context which will stem from interventions of all relevant actors and</i>	<i>Quantitative and/or qualitative variable that provides a simple and reliable mean to measure the achievement of the corresponding result</i> <i>To be</i>	<i>The value of the indicator(s) prior to the intervention against which progress can be assessed or comparisons made.</i> <i>(Ideally, to be drawn</i>	<i>The intended final value of the indicator(s).</i> <i>(Ideally, to be drawn from the partner's strategy)</i>	<i>The latest available value of the indicator(s) at the time of reporting</i> <i>(* to be updated in interim and final reports)</i>	<i>Ideally to be drawn from the partner's strategy.</i>	<i>Not applicable</i>

Organisation & methodology

	Result chain	Indicator	Baseline (value & reference year)	Target (value & reference year)	Current value* (reference year) (* to be included in interim and final reports)	Source and mean of verification	Assumptions
	stakeholders.	presented, when relevant, disaggregated by sex, age, urban/rural, disability, etc.	from the partner's strategy)				
Outcome (s) (Specific objective(s))	<p>The main medium-term effect of the intervention focusing on behavioural and institutional changes resulting <u>from the Action</u></p> <p>(It is good practice to have one specific objective only, however for large Actions, other short term outcomes can be included here)</p>	(see definition above)	The value of the indicator(s) prior to the intervention against which progress can be assessed or comparisons made.	The intended final value of the indicator(s).	(same as above)	Sources of information and methods used to collect and report (including who and when/how frequently).	Factors outside project management's control that may influence on the impact-outcome(s) linkage.
Outputs	<p>The direct/tangible products (infrastructure, goods and services) delivered/generated by the intervention</p> <p>(*Outputs should in principle be linked to corresponding outcomes through clear numbering)</p>	(same as above)	(same as above)	(same as above)	(same as above)	(same as above)	Factors outside project management's control that may influence on the other outcome(s)/outputs linkage.

Activity Matrix

Organisation & methodology

<p><i>What are the key activities to be carried out to produce the intended outputs?</i></p> <p><i>(*activities should in principle be linked to corresponding output(s) through clear numbering)</i></p>	<p>Means <i>What are the political, technical, financial, human and material resources required to implement these activities, e.g. staff, equipment, supplies, operational facilities, etc.</i></p> <p>Costs <i>What are the action costs? How are they classified? (Breakdown in the Budget for the Action)</i></p>	<p>Assumptions <i>Factors outside project management's control that may impact on the activities-outputs linkage.</i></p>
